Careers talks at Rolls-Royce
Q&A

13:00 - 14:00
Madrid Time

Rolls-Royce presenting its early career programmes at our
University!
Don't miss the opportunity!!

Throughout our proud history of pioneering the way the world is powered, we've discovered that this can come in many forms, not least in the traits displayed by our people. It's their courage, belief and curiosity that make us who we are.

Today, we're at the start of a bold, new era, as we lead the way in creating the vital solutions we need for a net zero future.

And we need you to help us. Join us, and as well as the chance to do just that, you'll discover an open, inclusive culture where you can be yourself and feel you belong.

No os perdáis a algunos ex-alumnos de nuestra Universidad compartiendo consejos sobre su experiencia en la compañía.

En esta sesión resolveremos dudas sobre cómo presentar una solicitud adecuada para formar parte de una de las empresas más prestigiosas del mundo en ingeniería.
