

Lufthansa Systems FlightNav Inc., part of the Lufthansa Group, provides navigation data and produces aeronautical charts and innovative navigation applications to support the flight operations of more than 200 airlines worldwide. The company is located in Glattbrugg ZH, Switzerland, close to the Zurich airport and currently employs over 190 staff members.

Aeronautical Chart Specialist

We are looking for a motivated and skilled Aeronautical Chart Specialist to join our revision team within the Data Production department. In this role you will be responsible for creating and revising navigational charts of the Lido/RouteManual for the use in commercial aviation.

Your responsibilities

- Create and revise navigational charts
- Work with all relevant additional state sources
- Develop and maintain awareness regarding flight safety and product quality
- Assess company's product specifications and customer requirements
- Ensure compliance with national and international standards and legislations
- Ensure correctness and completeness of all aeronautical data
- Initiate investigations on product modifications if required
- Liaise with customer service agents and product development to ensure the execution of corrective actions and compliance with customers' specifications

Your profile

- Dispatcher, air traffic controller, pilot's license or other relevant education or professional experience that provides equivalent knowledge
- Work experience in commercial aviation
- Work experience with navigational charts (Jeppesen, Navtech, Lido) highly desired
- Strong English skills (written and spoken); German is a plus
- Safe handling of aeronautical data and publications
- Sense of duty and quality
- Conscientious and independent work style
- High degree of flexibility, discipline and commitment
- Ability to work under time pressure
- Team player
- Quick adjustment to new tasks
