

САМАРСКИЙ УНИВЕРСИТЕТ
SAMARA UNIVERSITY

Samara National Research University
International Young Scientists Conference
“The 16th KOROLEV’S READINGS”
October, 2019

The main conference sessions are:

1. Design and engineering of rocket and space systems.
2. Advanced materials and technologies of space rocket equipment production. Mechanics of deformable solids and strength problems.
3. Aerodynamics, flight dynamics, aircraft control and navigation.
4. Design, production, maintenance of aircrafts and organization of transport processes.
5. Theory, design, reliability, strength and production technologies of aircraft engines.
6. Advanced engineering researches.
7. Electronics and instrument engineering and others.

Students interested to take part in the conference
please, urgently contact with Prof. Gustavo Alonso
at Subdirección de Relaciones Exteriores,
before **Friday, February 8th.**
