

Founded in 2004, the AMES Group is known as a true one-stop-shop in the aviation industry. Airlines, Aircraft Owners and other Service Providers to the Aviation Industry trust in our services - from the first idea to the finished product in the aircraft.

Student Internship with the option for a follow-on Bachelor's / Master's Thesis

Market research study on existing narrow- and wide-body aircraft fleets with respect to cabin interior configurations and cabin layouts

 Immediate start possible, Internship duration 3 to 6 months

 PEGGAU, Austria

We are delighted to announce an exciting opportunity for aviation students from our partner universities FH JOANNEUM Graz & Universidad Politécnica de Madrid to participate in a vocational internship program in Austria. As a renowned organization specializing in aircraft cabin refurbishments, cabin reconfigurations and the design and production of associated aircraft cabin components for commercial airliners, we are continuously enhancing and growing our product portfolio. The objective of this vocational internship program is to analyze major airline fleets in Europe and the Americas (focusing on Airbus and Boeing family aircraft) with a focus on cabin configurations, seating layouts, innovation grade in cabin customization and market penetration of typical cabin interior components.

We invite you to take part in this program, where you will have the opportunity to gain invaluable hands-on experience that can potentially be utilized for your Bachelor's or Master's thesis.

Key Facts

1. Internship

- Detailed Airliner market survey considering major airlines in Europe and the Americas with respect to fleet sizes, aircraft types, aircraft ages
- Development of a summary map for the analyzed airlines with a focus on cabin configurations, cabin seating layouts, innovation grade in the cabin customization and market penetration of typical cabin interior components
- Identifying and summarizing typical cabin interior products used by airlines

2. Follow-on Bachelor's / Master's Thesis

- ☑ Evaluation and interpretation of market survey results focusing on innovation grade vs. investment potentials
- ☑ Identifying USPs and KPIs triggering airline decisions on investments in cabin interior and cabin refurbishments
- ☑ Obtaining a sustainable product strategy for the existing and future growth of the AMES cabin interior product portfolio

3. Duration

- ☑ The vocational internship program will have a duration of 3 to 6 months. The exact timeline can be agreed and tailored to align with your academic requirements.
- ☑ Follow-on Bachelor- / Masters Thesis duration to be mutually agreed based on scope and academic requirements

What we offer

- ☑ Young and result oriented team members
- ☑ Settlement support in Austria / City of Graz
- ☑ Financial compensation to be agreed and negotiated
- ☑ Possibility to transfer the internship into a permanent working contract after graduation

We encourage aviation students from our partner universities FH JOANNEUM Graz & Universidad Politécnica de Madrid with a strong passion for the airline industry to apply for this internship program at AMES.

Please submit your resume, cover letter, and any relevant academic transcripts or portfolio to services@ames.co.at.

Shortlisted candidates will be invited for an on-site or remote interview to further discuss the internship program.

Join us in shaping the future of aircraft cabin interior refurbishment and component design!

Ready to join our team?

We are looking forward to receiving your application & CV per mail: services@ames.co.at
