

The Aalto Science Institute international summer research (internship) programme offers 60 Bachelor's and Master's students summer employment opportunities to participate first-hand in topical research, to interact with the premier research groups at Aalto University, and to network in an international environment.

The internships are open to students from all countries.

- The application period for the 2024 summer research (internship) positions is open 2 January – 29 January 2024
- All positions are located on Aalto University main campus in Espoo, Finland (remote employment is not possible)
- Students are employed as research assistants by the host department. The minimum salary is 1800€/month and in addition, a single travel bonus 400€/800€ is paid for those inside/outside Europe.
