VENUE

Universidad Politécnica de Madrid Schools and Research Institutes, Madrid, Spain.

The Spanish capital combines modern infrastructures with its status of economic, financial, administrative and service center. Madrid offers a perfect blend of culture, business, food, leisure and entertainment.

Madrid is ideally located in the center of the country. Its outstanding transportation network means that it is easy to get to and from by road, airplane, train or metro.

ANGLOTECH

- Nanotechnology
- Biomedical Technology + Cooperative, Connected and Autonomous Driving
- Fundamentals of Fashion Design and Communication
- Clean Energy + Optimization of Clean Energy Production Systems in Microsoft Excel
- Cybersecurity + 5G: a lot more than just mobile communications
- Artificial Intelligence + Data Science Fundamentals

Email for students:

Application for the **2023 UPM International Summer School (ISS)** is now open.

The UPM International Summer School (ISS) is an six-week multilingual study abroad programme, addressing some of the latest trends in **technology, engineering** and **architecture**, combined with a taste of Spanish language and culture in one of Europe's most cosmopolitan cities. The UPM ISS programme offers a wide range of short courses of varying length taught in Spanish and/or English. Participants are free to put together their own track by combining courses with compatible schedules. The UPM ISS gives participants the chance to learn basic Spanish language and culture, and the social programme includes weekend activities, such as day trips to top attractions like Toledo, Segovia and Alcalá de Henares, and guided walks around Madrid and visits to the Prado and the Queen Sofía Art Museums.

The UPM ISS primarily targets international undergraduate and postgraduate engineering, ICT and architecture students, although professionals are welcome to join courses of their interest.

The 2023 UPM International Summer School will run from **19 June to 28 July 2023 in Madrid**.
